Professional Summary

Dedicated and results-oriented Java Developer with a strong foundation in core Java concepts and a passion for building robust and scalable applications. Eager to apply technical skills and problem-solving abilities to contribute to innovative projects and collaborate within a dynamic team environment. Seeking an entry-level position to gain practical experience and grow professionally in the field of software development.

Skills

• Core Java 8	• API
• J2EE	• HTML&CSS
Spring Boot	• Javascript
Hibernate	• Bootstrap
My SQL Server	• Java

Work Experience / Projects:

Intern, Code Clause | Password Generator:-

Link: https://github.com/maddy046/CodeClauseInternship_PasswordGenerator

 Developed a Password Generator Web Application from scratch, using HTML, CSS, JavaScript, and backend technologies such as Servlets, JSP, and JDBC to manage user requests and interact with the database.

- Implemented dynamic front-end features using JavaScript to allow users to generate secure passwords with customizable criteria (length, complexity, character types).
- Built the backend with Servlets and JSP, handling form submissions and integrating a MySQL database through JDBC to store and retrieve generated password data.

Seed Infotech Ltd Training / Porfolio website:-

Link: https://github.com/maddy046/PortfolioWebsite

- Developed a personal portfolio website to showcase skills, projects, and achievements using HTML, CSS, and JavaScript for the front-end design and Servlets, JSP, and MySQL for the back-end functionality.
- Designed a responsive and interactive user interface with modern web technologies, ensuring optimal user experience across both desktop and mobile platforms.
- Implemented dynamic content management by integrating Servlets and JSP to handle form submissions, project data display, and user interactions.
- Ensured efficient data validation and user authentication for contact form submissions, employing best practices for security and data integrity.
- Optimized website performance by implementing best practices in code structure, image compression, and responsive design techniques.
- Conducted rigorous testing for cross-browser compatibility, ensuring smooth user experience across different browsers and devices.
- Completed the project within 2 months, demonstrating strong time management, collaboration, and problem-solving skills.

Course Website Developer | 01/2024 - 10/2024 :-

Link: https://github.com/maddy046/CourseWebsite

- Developed a Course Website using ReactJS for the front-end, providing an interactive, dynamic user interface for course browsing, registration, and management.
- Built the back-end using Spring Boot and Hibernate, ensuring smooth communication between the front-end and MySQL database for handling course data, user registrations, and payments.
- Implemented RESTful APIs with Spring Boot to manage course content, user profiles, and course enrollment functionalities, ensuring efficient data exchange and scalability.
- Utilized Hibernate for Object-Relational Mapping (ORM) to simplify database interaction, ensuring proper management of course entities, user data, and relational database integrity.

Work History

Software Developer 05/2021 to 08/2022

CodeClause Pvt. Ltd. – Pune, Maharashtra

 Proficiently resolving bugs in existing systems, ensuring smooth and reliable application functionality. Translating business ideas into actionable solutions, specializing in crafting efficient ERP systems.

Leveraging expertise in Java 8, Spring, Spring Boot, Microsoft Visual Studio, MS SQL Server, and
Web Services (SOAP) to develop robust software solutions.

 Utilizing Microsoft Source Control for streamlined version management and collaborative development.

Funnelbyte-Data/ Sales Executive — Burhanpur

01/2021 to 05/2023

 Conducted engaging and comprehensive lectures on computer science topics for BSc, BCA, and MSc students.

• Successfully delivered practical hands-on programming classes in the lab, guiding students through complex coding concepts and projects to enhance their proficiency in programming languages such as C&C++, .Net, and front end technologies.

Software Developer

June 2018 - Sep 2018

Affimintus Technologies - Indore

 Highly responsible for writing efficient code, implementing new features, and bugs to meet client requirements at Empower.

Proficiently working on Java MVC, Spring Core, Spring Boot, Spring MVC, SQL Server, and Web
API & GIT to deliver cutting-edge web applications.

• I have work on Service Modules and Implement CRUD RestAPIs in our Projects.

Education

BE[CS]: Computer Science 05/2019

Thakur ShivKumar Singh Memorial Engineering Colleg - Burhanpur

MP Board: HSC 03/2015

Adarsh Vidhyapeeth Higher Secondary School

MP Board: SSC 03/2013

Adarsh Vidhyapeeth Higher Secondary School- Burhanpur

Certifications

- Certified Java Developer Intern- **CodeClause** [07/2023 07/2024]
